Re Coil Coatings

Dear Sir's

We are writing to inform you of the excellent service you provide to us by Blygold.

As the largest distributor of Mitsubishi Electric air conditioning products we are often asked for our units to be installed in areas where chemicals or the elements could attack the coils causing them to fail. Blygold have come up with the answer with their coil protection treatment, they have a good turn around time and our customers have been very happy with the results.

Yours faithfully

Paul Court

Sales Director

A handwritten signature in black ink, appearing to read "Paul Court", with a long, sweeping underline.
